

New Staff Profile

ABOUT ME

Oliver Carlton

Background

I recently joined InterchangeSA having worked in with museums sector the UK. As part of my work in the UK I taught history and mentored uni students- which was my favourite part of working in a museum..and getting to play with really old stuff!!! My job at InterchangeSA is to work on all the bits behind the scenes that people may not see but are really important to giving our volunteers, participants and staff the best possible opportunity to succeed.

At the minute I am working on our on-line presence so if you haven't already done so- like us on Facebook and send us anything that you think we should feature!!
